### Brief history of the ward

Belady ward was under Attur territory. Since the ward was very far from the church, there wasn't any contact or good relationship between the church and the ward. People were facing a lot of problems at the time of death. When the new church was erected at Parapady, they were incorporated into Nirmalpadav. Mr John lewis was appointed as the gurrkars of the new ward. He served for 29years. Most of the families live on agriculture. The area is covered by multi linguistic people. Though the houses are far away, there is unity among the families. People have no transport facilities to the church yet they come by walk.
